Prepared For:	Personal Investor
Date:	April 2026
Time Horizon:	Short-term (Marriage) + Long-term (Wealth)
Investment Style:	100% Shariah Compliant
Platform:	Groww App

1. Aapki Current Financial Picture

Item	Amount (Rs.)
Account Cash Balance	1,17,862
Stocks Holdings	28,978
Digital Gold (1.39g on Paytm)	21,467
TOTAL NET WORTH	1,68,308
Monthly Salary (June onwards)	30,199
Monthly Expenses	10,000
MONTHLY SURPLUS (~)	20,000

Aapke Goals

- Short-term (12-18 months):** Shaadi ke liye Rs. 2,00,000
- Post-marriage (2 months):** Kiraya Rs. 16,000 (8k x 2)
- Long-term:** Halal tareeqe se maximum wealth growth

IMPORTANT WARNING: Stocks long-term wealth (5-10+ years) ke liye hain. Aap shaadi 12-18 mahine mein kar rahe ho. Agar market us waqt down ho gaya (jaise 2020 mein 30% gira), to loss mein bechna padega. Isliye **shaadi ka paisa stocks mein NAHI dalna chahiye**. Alag rakhna hoga.

2. Aapka 3-Bucket Plan

Bucket 1: Shaadi Fund (Rs. 2,00,000 in 12-18 months)

Yeh paisa SAFE jagah, NO stocks. Halal options:

- **Savings account** mein rakho. Conventional FD interest-based hota hai (riba) — avoid karo.
- Agar interest aaye to receive mat karo, ya charity de do (without sawab niyyat) - common scholar opinion.
- **Plan:** Rs. 1,00,000 abhi reserve karo. Phir Rs. 8,000/month x 12 = Rs. 96,000 add karo.
- **Result:** 12 mahine mein Rs. 1,96,000 ready (lagbhag goal poora).

Bucket 2: Emergency + Post-Marriage Fund

- Bachi Rs. 17,862 cash ko emergency fund banao.
- Shaadi ke baad 2 mahine ka kiraya (Rs. 16,000) yahin se nikalna.
- Plus job loss / medical emergency ke liye buffer rakhna.

Bucket 3: Long-term Wealth (Stocks + Gold)

Monthly Rs. 20,000 surplus ka allocation:

Allocation	Amount/month	Purpose
Shaadi Fund	Rs. 8,000	12 months ke liye
Halal Stocks SIP	Rs. 10,000	Long-term wealth (5-10 years)
Gold (Groww ETF)	Rs. 2,000	Inflation hedge + future use
TOTAL	Rs. 20,000	

3. Halal Stock Recommendations

Aapki current holdings (HCL Tech, UltraTech, Castrol, TCS) sab Shariah-compliant hain. Acha selection. Ab Nifty 50 Shariah Index ke top stocks based on official NSE screening (monthly compliance check ke saath):

Sector	Stock	Why	Status
IT (30%)	TCS	India's largest IT, ROCE 64%, low debt	Have
IT	HCL Tech	Strong IT services, ROCE ~30%	Have
IT	Infosys	IT giant, low debt, stable growth	ADD
FMCG (20%)	Hindustan Unilever	Recession-proof FMCG leader	ADD
Pharma (15%)	Sun Pharma	India's largest pharma	ADD
Pharma	Cipla	Alternative pharma pick	Optional
Cement (10%)	UltraTech Cement	Infra growth play	Have
Consumer (15%)	Asian Paints	Strong moat, paint leader	ADD
Consumer	Nestle India	Premium FMCG, stable	ADD
Energy (10%)	Reliance Industries	Diversified conglomerate*	Optional

***Note on Reliance:** Multiple Shariah screeners isko compliant maante hain, lekin Islamicly research per Reliance Retail mein 1 brand (Freshpik) wine bechta hai jo total revenue ka ~0.43% hai. 5% threshold ke andar hai, isliye compliant maana jata hai. Aap chaaho to skip karke ONGC ya Nestle se replace kar sakte ho.

Avoid: Aapke paas Castrol India hai (15 shares). Halal hai, but small-cap concentration zyada nahi karna. Future buying mein large-cap stocks par focus karein - more stability, less risk.

4. Monthly Stock SIP Plan (Rs. 10,000/month)

Har mahine 1st week mein in stocks mein paisa daalo (rotation strategy). Yeh **rupee-cost averaging** hai - long-term mein safest tareeqa.

Month	Stock 1	Stock 2	Stock 3	Total
Month 1	Infosys (3,000)	HUL (3,000)	TCS top-up (4,000)	10,000
Month 2	Sun Pharma (3,500)	Asian Paints (3,500)	HCL top-up (3,000)	10,000
Month 3	Nestle (3,500)	UltraTech (3,500)	Reliance/ONGC (3,000)	10,000
Month 4	Repeat Month 1 cycle			10,000

5. Gold Investment - Important Update

Aap Paytm pe digital gold rakhe huey ho (1.39g, Rs. 21,467). Yeh problems hain:

- **Digital gold SEBI/RBI regulated nahi hai** - SEBI ne November 2025 mein officially caution issue kiya.
- 5 saal ke baad **storage fees** lagti hain.
- Buy-sell mein 2-3% spread hota hai - immediate sell pe loss possible.
- **Sovereign Gold Bonds (SGB)** ab discontinued hain (February 2024 ke baad new issuances band).

Best Solution: Groww Gold ETF

Haan, aap Groww mein gold invest kar sakte ho! Groww par ye options available hain:

- **Gold ETFs** - SEBI regulated, stocks ki tarah trade hote hain. **Recommended.**
- **Gold Mutual Funds** - SIP-based, monthly auto-invest possible.
- **Gold Commodity Derivatives (MCX)** - Gold futures/options. **AVOID** (speculation = gharar, halal nahi).
- **Note:** Groww par direct digital gold (Paytm jaisa) abhi nahi hai - Gold ETF use karo.

Recommended Gold ETFs on Groww

ETF Name	Why
Nippon India Gold ETF	Largest, highest liquidity
HDFC Gold ETF	Strong track record, low expense ratio
ICICI Pru Gold ETF	Reliable AMC, good tracking
Groww Gold ETF	Lower expense ratio (0.67%)

Aapka Action Plan for Gold:

1. Existing Paytm digital gold (1.39g) abhi rakho - 1-2 saal mein redeem ya physical mein convert kar lena (shaadi mein useful).
2. **New investments** Groww par **Nippon India Gold ETF** ya **HDFC Gold ETF** mein karo - Rs. 2,000/month SIP.
3. Total portfolio mein gold 5-15% rakhna ideal hai (zyada nahi).

6. Stock Halal Check Karne Ke Tools

Future mein koi naya stock dekhne se pehle halal status verify karein:

- **Islamicly App** - Har stock ka detailed Shariah report.
- **Musaffa.com** - Global stocks ka Shariah screening, AAOIFI standards.
- **Nifty 500 Shariah Index list** - NSE ki taraf se monthly screened, official.
- **3 Quick Checks:** Business halal? + Debt < 33% of market cap? + Non-halal income < 5%?

Riba (Interest) Avoid Karne Ke Liye

- **Conventional FDs nahi** - interest-based hain.
- **Savings account interest** - charity ko de do (without sawab niyyat).
- **Credit cards** - bill 100% time pe pay karo, kabhi interest mat lagne do.
- **Personal loans / EMI**s - shaadi ke liye plan karke save karo, loan mat lo.
- **Halal Mutual Funds (if needed):** Tata Ethical Fund, Taurus Ethical Fund, Nippon India ETF Shariah BeES.

7. 12-Month Action Plan

Phase	Action Items
NOW (May 2026)	1. Rs. 1,00,000 cash shaadi fund mein lock karo (alag mental bucket) 2. Rs. 17,862 emergency fund 3. Existing stocks aur Paytm gold continue rakho
June 2026 onwards (Salary Rs. 30,199)	1. Rs. 10,000 kharcha 2. Rs. 8,000 → Shaadi fund 3. Rs. 10,000 → Stock SIP (rotation per Section 4) 4. Rs. 2,000 → Groww Gold ETF SIP
Pre-Marriage (12-15 mahine baad)	1. ~Rs. 2,00,000 shaadi ke liye ready 2. Stocks portfolio ~Rs. 1,50,000-1,80,000 (market depending) 3. Gold ~Rs. 50,000
Post-Marriage	1. 2 months kiraya emergency fund se cover 2. Stock SIP temporarily Rs. 5,000 kar sakte ho 3. Phir wapas Rs. 10,000 kar dena

8. Long-Term Expectations & Final Notes

Halal large-cap stocks mein historical CAGR ~12-14% rahta hai (Nifty Shariah long-term). Agar aap Rs. 10,000/month consistently dalein:

Time Period	Total Invested	Expected Value (12% CAGR)
5 Years	Rs. 6,00,000	~Rs. 8,25,000
10 Years	Rs. 12,00,000	~Rs. 23,00,000
15 Years	Rs. 18,00,000	~Rs. 50,00,000
20 Years	Rs. 24,00,000	~Rs. 1,00,00,000+

Key Principles to Remember:

- 1. Sabr (Patience):** Market down ho to ghabra ke bechna nahi - yeh sabse badi galti hai.
- 2. Consistency:** Har mahine SIP, market high ho ya low - rupee-cost averaging ka magic.
- 3. Niyat (Intention):** Halal kamai aur halal kharcha - barakat ki guarantee.
- 4. Diversification:** 8-10 different stocks across sectors - ek girne se total damage nahi.
- 5. Long-term Mindset:** Real wealth 10+ saal mein banti hai, 1 saal mein nahi.
- 6. Re-screen Annually:** Companies ki Shariah compliance change ho sakti hai - har saal verify karo.

DISCLAIMER: Yeh research-based educational guidance hai, financial advice nahi. Bade decisions ke liye SEBI-registered halal-aware financial advisor (jaise Wahed Invest, Tata Ethical fund managers) se consult karein. Shariah compliance pe doubt ho to qualified Aalim/Mufti se confirm karein. Stock prices market risk ke saath aate hain - past performance future returns ki guarantee nahi hai. Allah behtar jaante hain.

Allah aapko barakat de aur halal wealth de.
